# CALIFORNIA 911 SYSTEM

CA 911 Outages		
Northern California	Central California	Southern California
No 911 Outages	No 911 Outages	No 911 Outages

**911 Outages/Remote/Community Isolations:**

- None reported

**Service Interruptions:**

- None reported

# **WEATHER OF CONCERN**

## **NORTHERN CALIFORNIA**

- Wet weather returns to northern California this weekend and will continue next week.
- Heavy snow for the mountains next week with increased flooding potential for the valley and foothills.
- Increased flooding potential remains the threat for the valley and foothills.

## **SOUTHERN CALIFORNIA**

- It will be fair and warmer through next week as high pressure slowly builds in.
- Weather systems passing to the north will bring high clouds at times, but expect at least filtered sun each day, with temperatures back to normal levels by the middle of next week.
- There will be a chance of rain next Saturday and Sunday.

# WEATHER KEY POINTS

**02/24/19 - 03/02/19**

## Sunday-Wednesday

- Rain and snow over Coastal and Inland Regions.
  - Snow levels will start off low around 2500 feet before quickly rising to 4500 feet. Snow accumulation across higher terrain could have travel impacts.
  - The heaviest rain will fall over the Northern half of CA Monday and Tuesday and over the Southern half of CA Tuesday and Wednesday. Rivers and streams will run high with minor impacts to lowlands.
  - Localized urban and small stream flooding is expected.
  - **Confidence has increased with respect to debris flows over recent burn scars for the Northern half of CA. Included is the Camp Fire burn scar.**
  - **There is also a threat of mud and rock slides over steep terrain.**
  - Winds will be strong and gusty with the potential for downed tree branches, power lines and power outages.

## Thurs-Monday

- Drier and warmer. No impacts expected.

# CALIFORNIA WEATHER IMPACTS

02/24/19 - 03/02/19

# Cal OES LAW ENFORCEMENT MISSIONS

## Ongoing Cal OES Law Missions

- **2019-LAW-57946, 02/21/19, 2209 hours:** AFRCC reported an overdue aircraft alert notification (ALNOT). A Beechcraft 55 with 3 persons on-board departed San Luis Obispo en route to Whiteman Airport in Los Angeles. The aircraft was reported overdue at 1600 hours by family members. AFRCC generated a CAP mission 19M0101A. Kern County Sheriff's Office (KCSO) was notified and generated a Search & Rescue (SAR) mission. A radar forensic indicated the last known position at 35° 6.411'N, 119° 1.593'W before it lost contact, which plots to an area in Kern County south of the Grapevine. The flight pattern prior to losing contact suggested the aircraft altered course to avoid a storm cell. KCSO SAR and CHP H-40 searched the area of the last known radar contact and did not locate the aircraft or debris. A cellular phone forensic tracked two known phones onboard approximately 20 miles further east, where one stopped generating data at 1718 hours and the other continued to generate stationary data at 35° 2.829'N, 118° 35.591'W. This plots to a mountainous area of Kern County, southeast of Stallion Springs. Poor weather prevented CHP and KCSO aircraft from accessing the area to search from the air. At 0630 hours, CAP generated a daytime search mission. Kern Sheriff SAR was on standby pending results of the aerial search. At 1020 hours one CAP fixed wing aircraft and one US Forestry helicopter were on station and commenced the search. At 1158 hours the Forestry helicopter located the crash site. The helicopter crew landed and confirmed one fatality in the aircraft, but deep snow hampered recovery efforts. At 1549 hours, limited SAR personnel reached the crash site by snowcat and confirmed the aircraft tail number as the missing aircraft. SAR planned to bulldoze access to the site overnight and prepare SAR resources to access the site on the next day to recover victims. **MISSION UPDATE, 02/23/19:** Kern County Sheriff requested two snowcats to assist in their recovery effort. Fresno SO and Mono SO were contacted and are both deploying snowcats and operators for the duration of the mission. **Mission Ongoing**

## Closed Cal OES Law Missions

- **2019-LAW-58018, 02/22/19, 1650 hours:** The City & County of San Francisco requested immediate response assistance of a Human Remains Detection (HRD) canine team in an effort to locate a person believed buried in a landslide at the Fort Funston area of San Francisco. San Mateo Sheriff's Office dispatched one canine team for the search. **UPDATE, 2035 hours:** The canine team was released. The victim was not yet located. **Mission Closed**
- **2019-LAW-57984, 02/22/19, 1347 hours:** Marin County Sheriff's Office (MCSO) requested two area search and one trailing canine teams to assist in the search for a despondent person. Law Enforcement Branch coordinated the canine response to support the search on 02/23/19 in the Stinson Beach area of Marin County. **UPDATE, 02/23/19, 1611 hours:** Marin County SO reported that the despondent person was located deceased. All canine resources were released. **Mission Closed**
- **2019-LAW-57972, 02/22/19, 1025 hours:** The Air Force Rescue Coordination Center (AFRCC) reported an Emergency Position Indicating Radio Beacon (EPIRB), indicating a vessel in distress at 32.934440, -117.102220, which plotted to a residential area of San Diego County. AFRCC initiated Civil Air Patrol (CAP) mission #19M0103. At 1545 hours, AFRCC updated that CAP and local law enforcement were still attempting to locate the source. **UPDATE, 2218 hours:** AFRCC reported that CAP closed this mission. **Mission Closed**

# Cal OES MISSION TASKING

## Cal OES Missions

- **2019-SREOC-57753:** Requesting equipment to excavate material from under road culverts. (On Scene)
- **2019-SOUTHERN-57471:** Daily Operations - Mono County is requesting 1 California Conservation Corp (CCC) crew (Tahoe Center) to assist with critical snow removal operations in Mammoth Lakes. ([Demobilizing on 02/24/19](#))
- **2019-SOUTHERN-57469:** Daily Operations - Mono County is requesting 2 CDCR hand crews from Owens Valley Conservation Camp #26 with 2 CAL FIRE Captains to assist with critical snow removal operations in Mammoth Lakes. (On Scene)
- **2019-SOUTHERN-57447:** Daily Operations - Mono County is requesting 2 CDCR hand crews from Owens Valley Conservation Camp #26 with 2 CAL FIRE Captains to assist with critical snow removal operations in Mammoth Lakes. (On Scene)
- **2019-SOC-57397:** Cal OES is requesting Caltrans assistance in developing a detailed traffic management plan for the debris operations in Butte County. (On scene)
- **2018-SOUTHERN-56869:** Daily Operations - Communication Support for the Baker to Vegas Challenge Cup Relay XXXIV
- **2018-IREOC-49869:** 2018 July Statewide Wildfires - Debris Management Task Force for Shasta County. (On Scene)
- **2018-CREOC-48046:** 2018-06-23-Lake-Wildland Fire - DTSC to clear debris from Pawnee Fire. (Coordinating)
- **2018-IREOC-45244:** Daily Operations - Caltrans to remove dead and dying trees along highways in Kern, Tulare, Fresno, Madera, Mariposa, Tuolumne, Calaveras, Butte, Plumas, Sierra, Shasta, and Lassen counties. (On Scene - Long-term assignment)
- **2017-INLAND-42559:** Daily Operations - Weather station installed to gather real time rainfall data by Air Resources Control Board (ARB). Mission extended through 05/30/19. (On Scene)
